ISAÍAS CHAVEZ

SOFTWARE DEVELOPER

Oaxaca de Juarez, Oaxaca | isaiaschavez.co@outlook.com | www.myisaias.com

React Native developer with over 4 years of experience in the airline industry, fast-moving consumer goods (FMCG),technology (AR, VR), and retail using React Native. I am a specialized developer who has designed solutions that reduce perishable waste expenses by over 12%, positioning me as a valuable asset

AREA OF EXPERTISE

React Native	GPT / DeepSeek	**JavaScript** / Typescript
React	iOS	Jest
Redux	Android	Nodejs
Redux-Saga	PostgreSQL	Effective communication

KEY ACHIEVEMENTS

- **Market Expansion:** I designed a data caching system that reduced requests to Walmart's perishable goods system to one-tenth, increasing its usage by up to 40%. I also implemented the new dashboard for the Mexican market.
- **Notification System:** Successfully implemented the current notification system in Aeroméxico's mobile application for schedule changes and boarding gate updates.

PROFESSIONAL EXPERIENCE

React Native Developer, Walmart Global Tech   **Sept 2024 - Present**
- Developed a waste reduction system for Walmart, increasing perishable material utilization by **12%.**
- Designed a data caching system that reduced requests to Walmart's perishable goods system by **90%**, increasing its usage by up to **40%.**

React Native Developer, Aeroméxico   **Sep 2022 - Sept 2024**
- Develop a module to detect and parse the Machine Readable Zone (MRZ) on passports and ID cards reducing manual errors during data entry by over 85%.
- Implement real-time push notifications for flight delays, gate changes, or boarding announcements, ensuring passengers are always informed.

React Native Developer, BigHuman.   **Mar 2022 - Jul 2022**
- Developed the Oye App for artist J Balvin , focusing on delivering a seamless user experience and high performance. Extensive animations were meticulously implemented using the Animated library.
- Developed a new ticketing system for the Express Pass section at Rockefeller Center using React, enhancing ticketing efficiency and user satisfaction.

React Native Developer, Inmersys.   **Sep 2020– Sep 2021**
- Proficient in Virtual Reality (VR) and Augmented Reality (AR) technologies, leading to the most successful launch of the Juguetilandia platform.
- In 2020, spearheaded a pioneering AR implementation that increased user engagement by 35% and boosted sales by 20%, setting a new industry benchmark for innovation and immersive customer experiences.

EDUCATION

Bachelor of Computer Engineering   **Aug 2017 - Oct 2022**
- Technological University of the Mixtec Region, Oaxaca.
